GRADE RANGE: JK to 8

Interesting Feature

Active Body=Active Mind

We have focused on promoting healthy living skills for all of our families-in fact we continue to bring in experts to educate our kids and their parents about healthy eating choices. We offer all of our students daily physical education in order to improve not only their physical fitness but also their ability to concentrate. We are able to offer opportunities to participate in a broad range of sports including intra-murals and inter-school athletics. Skill development & fair play are our main foci.

It's all a part of being at Ledbury!

Ledbury Park Elementary and Middle School is a Junior Kindergarten to Grade 8 school located in an economically diverse, multicultural, multifaith and multilingual community near Bathurst and Lawrence. Our school is recognized for its strong parent-school partnerships. We pride ourselves in providing all students with the knowledge, skills and opportunity to become successful individuals. Ledbury's staff emphasizes a comprehensive academic program with a strong focus on literacy, numeracy as well as student engagement & empowerment. Vibrant co-curricular/after school programs enhance the growth and development of our students. We are constantly improving our incorporation of IT to help our students better prepare for the future.

Life is a Stage/Music for the Soul

Every day at Ledbury starts with music. Our choir and band have performed at a number of events and perform several times for our community. We also have a number of experts who work with our students throughout the year to expose them to different genres of music and dance. Latin drumming, Brazilian drumming, ballroom dancing as well as other performance-based workshops are all options that have been made available to Ledbury's students in recent years.

Caring, Safe & Accepting Schools

Our school is known for its school-wide focus on Character Education. Our close partnership with Toronto Police Services continues to allow all of our students as well as our staff and parents to gain familiarity with current and emerging issues such as internet safety. Our Caring, Safe & Accepting Committee meets monthly to pro-actively deal with any emerging issues.

Information Technology to assist student learning

In order to prepare our students for tomorrow's challenges as well as in our attempts to create more student-led learning opportunities, Ledbury has incorporated the use of interactive whiteboards in most of our classrooms. Our school and parents are working hard to ensure that these and other learning tools become available for all of our students this year.

Tomorrow's Teachers

Ledbury Park is in a very fortunate position to be able to host a number of teacher candidates in our classrooms. Having these additional educators in addition to our regular volunteers provides our kids with exposure to different perspectives and teaching styles. We are also extremely proud to be able to assist our future educators.

Additional Features

- Thinking Global, Helping Local
- Musical Performances
- Overnight Excursions
- After 4 & Lunchtime Programs
- Community Partnerships

Student Life - Where You Belong

Ledbury is a school that prides itself on ensuring that our students have real meaningful ways to contribute to school life and call this place their second home. Our front foyer and our cafeteria are open daily for students so that they may play games, study or simply catch up with each other. Our students are responsible for daily announcements, kindergarten helpers, PALs recess helpers, and library helpers. Events such as public speaking contests, spelling bees, debates, science fairs, poetry cafes and our French week are just a few examples of opportunities where our students are able to showcase their talents. The majority of our students are also involved in a number of extra-curricular activities. Our middle school students will have the opportunity to attend camp or travel to urban destination spots. Student voice is critical and therefore we regularly seek feedback from our students as to how we can improve the school.

What Sets Us Apart

What truly sets Ledbury apart from other schools is the very real sense of community one experiences while here. Our caring staff make every effort to get to know all of our students in order to be able to assist and challenge them if required. Our elder students frequently partner with our younger ones to help them learn. Our parents are extremely supportive of all of our students- they are involved in every aspect of school life from organizing after-4 programs to fundraising so that every child could attend a certain co-curricular event to cooking for our students as part of our informal breakfast program. Our students think locally and act globally- typical examples of this would include our students donating to help food banks as well as raising money to help the needy both in Toronto as well as in other countries. With everyone making a significant contribution to not just school life but also to the life of the community-at-large, it is not difficult to see why Ledbury is a happy and inviting place.

Parent and Community Engagement

Ledbury is very fortunate to have a highly active and supportive School Advisory Council. Our caring and involved parents are responsible for organizing a wide variety of events from our After-4 programs to Fundraisers to help support our needy students, technology in the classrooms, our sports teams as well as all aspects of our arts programs. We have a multitude of volunteers assisting on fieldtrips and fundraising activities. Ledbury has also partnered up with a number of community agencies. Such partnerships have led to ongoing support for our breakfast program; better informed students and parents through presentations by experts as well as additional opportunities for our students through unique excursions/activities. It is our goal to continue to reach out and give back to our community through student outreach.

Imagine a TDSB where all schools share a common core set of characteristics. They are community-driven and focused on teaching and learning. Students and parents have a wide variety of opportunities and there are enough students in every school to increase program choices.

Imagine there is a clear focus on achieving student success and every student is engaged, has a voice, access to a caring adult and the opportunity to develop their full potential.

Here at the TDSB our focus is on student achievement, parent and community engagement and financial stability.
